Sunday morning in the summer is one of my favorites. The sun is out, the grass is green, the birds are enjoying my bird feeder and I am enjoying them flying around and fighting the squirrels for food. It is also my time to write about the events that shape our dental society and make us unique.

One of those events is the Give Kids A Smile program which we host at the Aquarium in Riverhead. At this event we, the dental society dentists, volunteer and partner with dental students from The Stony Brook School of Dental Medicine, Residents from St. Charles Hospital, Farmingdale Dental Hygiene students, and BOCES Dental Assistant students, to provide exams, cleanings and instruction to over 300 children that would otherwise not have access to these services.

Children that need a dental home are then provided with a list of dentists that are in the area who can provide them with care. This list includes the names of the dentists who volunteered for the event. By taking time out of their offices these dentists are rewarded with the satisfaction of giving back to the community and enjoying time with their peers, a perk of volunteering!

My mission this year has been to include all the members of the dental society into a big family. That is why we are heading East to include our East End members.

The dental society’s Education Committee has partnered with the Membership Committee to bring one of our lecture series to our members out East. On October 13, 2017, Dr. Gene Antenucci, past president of the Suffolk County Dental Society, will be presenting a lecture on new technology at the Hilton Garden Inn in Riverhead.

It is a combined effort by these committees to include our East End members by making an event more accessible and we are hoping that our colleagues will be able to join us! So, colleagues out East, get ready, we’re coming to your backyard and we would like you to join us! See you on October 13, 2017!

Our Goal is Zero.

We’ve come a long way in getting kids covered and giving them a healthy start in life - with regular checkups, dental and eye care, immunizations, and a doctor who knows their name.

But today, there are still more than 100,000 children in New York State who do not have health insurance – or the care they need to grow up happy, healthy, and strong.

It’s a troubling statistic that we can change.

That’s why Fidelis Care is joining with New Yorkers everywhere to tell parents that learning about quality, affordable health insurance is just a call or click away.

Let’s Get Every Child Covered.

American Dental Association Trustee Elect

It is with humble pride that I share with you my recent election as Trustee representing our Second Trustee District, New York, on the Board of the ADA. This is a position that requires a great deal of time and energy and I suppose I should be more careful with the saying, “Be careful what you wish for, you might get it!”

All kidding aside, I am very fortunate to be at a place in my personal and professional career that this position fits exceedingly well, and blessed by a support group here in Suffolk County that I believe rivals any component in the US. I have always aspired to be active, engaged, and productive in any service position I have filled during my career in our organization and culminating in this opportunity takes a great deal of timing, dedication, and optimism.

I am indeed blessed to have been elected and graciously intend to continue my direction to find the best path for our profession. This position will commence with the close of the ADA House Meeting in October of 2018, so I have plenty of time to prepare myself for the rigors of the position over the next 15 months.

There are currently 17 Trustee districts across our country. The larger states like New York, California, Texas, Pennsylvania, Indiana and Florida are their own districts and the others are made up of multiple states that also include the US Virgin Islands, Puerto Rico, and the Armed Services, to name a few. Representation on this board is an honor that members of each district elect for four year terms to handle many of the issues that affect our profession, and how the ADA answers those issues. Our House of Delegates is the primary policy setting body of the organization and the Board of Trustees, by meeting more frequently than the annual meeting, carries the responsibility to bring the needs of our volunteer membership to the expression of those policies set by our House.

In this current political climate there is a great deal of mistrust, acrimony, and distaste for the entire realm. Fortunately the world of dental politics runs in a lateral universe where respect and congeniality support our mission. There are, however many personalities and many constituents that all want their voice heard and acted upon. I can assure you that I have a great amount of respect for those who have preceded me in this position. I also feel that representing New York State nationally is something that gives me great pride because of the strength of those members I now represent across our state.

On a personal note, I would like to thank all those members of the Suffolk County Dental Society that provided support to me over the past 28 years of my career. Dr. Kevin Henner as my campaign Chair, our Executive Director Dr. Paul Markowitz for his constant support and as a fountain of advice, all of our Delegates / Alternates and members of our Board who have helped shape my career and each of you for your membership in our organization that has the ability and desire to shape the world’s greatest profession.

CLASS SIZE IS STRICTLY LIMITED: REGISTRATIONS ACCEPTED FIRST-COME, FIRST-SERVED

NO REFUNDS WILL BE MADE ON DAY OF PROGRAM!
I am very excited to share the following news regarding the recent NYSDA House Of Delegates meeting. I have been involved in one capacity or another with organized dentistry for just under 30 years, since I joined the SCDS Board in 1988. This meeting was the pinnacle of that involvement for many reasons.

First of all, let me thank our Trustee Dr. Paul Leary; Delegates Drs. Kevin Henner, Guenter Jonke, Kerry Lane, Maria Maranga, Chris Salierno, Jeffrey Seiver, Steven Snyder and Ivan Vazquez; and Alternate Delegates Drs. Martin Dominger, Scott Firestone, John Guariglia, Patricia Hanlon, Dimitrios Kilimitzoglou, Claudia Mahon-Vazquez, Anthony Maresca and Sharon Pollick for their unlimited energy and desire to help with the important work that needs to be done on behalf of the members of the SCDS. This group worked together tirelessly and were intimately involved in all aspects of the meeting. Their commitment was outstanding.

There have been numerous meetings that I have attended at both the ADA and NYSDA where I have left very disappointed because the outcome of many votes were not what I thought they should be. In addition, I felt that many issues which needed to be resolved were either defeated or referred back for more discussion (which many times were never to be seen again).

However, this meeting ended on such a positive note, because all the outcomes were what we, as a group, wanted.

First, Dr. Firestone, as the Chair of the Council on Dental Practice had proposed a resolution, regarding the use of local anesthesia by dental hygienists, that his Council had recommended. Dr. Firestone spoke on behalf of that resolution, which passed.

Second, there was a resolution to continue the Medicaid subcommittee, which is chaired by Dr. Hanlon, for another two year term. Dr. Mahon-Vazquez spoke to the HOD regarding the value of this sub-committee and this resolution passed as well.

Third, Dr. Seiver and the Peer Review Council have been working for numerous years to rewrite the Manual which sets policy for this important member benefit. Dr. Seiver has been a strong believer that the old policy manual was unfair and has been actively working to update its flaws. I am happy to report that the new 60 page manual that he was intimately involved in rewriting has been approved.

Fourth, the resolution that the SCDS presented last year to the NYSDA HOD regarding the reduction of the active life dues discount, to match the ADA and the SCDS, was reintroduced this year with the support of the NYSDA Council on Membership and the Board of Trustees. There was much discussion regarding this resolution and Dr. Seiver spoke on behalf of its merits. This resolution passed also.

Finally, the high point of the entire meeting was the election of the next ADA Trustee to represent the 2nd Trustee District (New York State). Dr. Leary ran against past NYSDA President Dr. Deborah Weisfuse from NY County. Dr. Leary gave a very well received speech to the entire HOD and also visited individually with each of the thirteen components, accompanied by his wife, Debbie and Dr. Henner. I am extremely happy and proud to announce that Dr. Leary will be serving as our next ADA Trustee starting in the fall 2018.

I could not be more excited for the future of the SCDS, NYSDA and the ADA. The members of the SCDS are extremely well represented by many talented and intelligent individuals who are able to work together to support and encourage each other to continually rise to a higher level. We are all extremely fortunate to have this right here in our own back yard.

Thank you everyone for your dedication and desire to keep our profession moving forward in a positive direction for the young dentists who will be our future leaders.

The Dr. Stephen B. Gold Memorial Seminar Series 2017

Course #2017-03 Wednesday, October 4, 2017: 7 m.c.e. credits
Steven Fallon, D.M.D.  FIXED IMPLANT REHABILITATION FOR THE TERMINAL DENTITION
(sponsored by Nobel Biocare)  AND EDENTULOUS ARCH: From Initial Consult To Final Delivery

Course Synopsis:
In today’s world, edentulous patients, and those with a terminal dentition, are seeking a fixed replacement solution for their failing arches. Practitioners with a thorough understanding of the physiologic, functional and esthetic fundamentals involved in full arch implant rehabilitation will be able to best serve this patient population. This course will provide the educational foundation and clinical pearls required to rehabilitate these patients using a simplified, safe and scientifically proven method.

Dr. Steven Fallon has extensive experience in the field of implant surgery, with an emphasis on full arch rehabilitation. The course will focus on a team approach in the treatment planning and management of these cases. Practitioners will learn the critical keys for success in the surgical, laboratory and restorative techniques that are essential in providing a predictable, fixed and immediate solution for the edentulous patient including the All-on-4 and Branemark Zygoma Treatment concepts.

Course #S2017-04, Wednesday, December 6, 2017: 7 m.c.e. credits
Ben Miraglia, D.D.S.  ORTHODONTIC OPPORTUNITIES FOR THE GP: Everything From Early Childhood Growth And Development To Adult

Invisalign
TOPICS/DESCRIPTION
1. Interceptive Orthodontic Techniques for Airway and Facial Development
2. Sleep Disordered Breathing in Children: The Dentist’s Role
3. Invisalign: The Cornerstone of Comprehensive Care Dentistry

LEARNING OBJECTIVES:
Airway and Facial Development:
1. Understand the origins of the malocclusions we struggle with daily
2. Understand the relationship between malocclusion and many childhood illnesses
3. Understand the relationship between sleep disordered breathing and early childhood development
4. Understand the difference between nasal and mouth breathing and how severe the consequences are
5. Understand the relationship of sleep disordered breathing to ADHD
6. Understand how Myofunctional guidance appliances work to fully develop facial features and an appropriate airway
7. Understand the impact a fully developed airway can have on a child’s health and well being

Invisalign:
1. Understand how to set up and treat severe spacing cases
2. Understand how to set up and treat moderate to severe crowding cases with little to no IPR
3. Understand how to incorporate Invisalign into moderate to severe perio cases
4. Understand how to use Invisalign for complex restorative cases
5. Understand how to use Invisalign for extensive amounts of molar expansion and rotation
6. Understand how to use Invisalign as a comprehensive orthodontic technique to treat a variety of malocclusions

All the courses described in these pages have both CERP and PACE approval for CE credit. Please go to page 13 to register for all the courses and programs listed in this Bulletin.
The Suffolk and Nassau County Dental Societies
cordially invite you to attend

**Scrubs & Stilettos**

A Women’s Dental Conference
Join us for an innovative half-day of camaraderie, education and interactive
round-table discussions on topics of special interest to women dentists.
2011 winner of the ADA Golden Apple Award and the 2010 winner of the NYSDA Hallmarks of Excellence Award

**Carlyle at the Palace**
1600 Round Swamp Road, Plainview, NY 11803 — (516) 756-1600 www.carlyleatthepalace.com

**WEDNESDAY, OCTOBER 11, 2017**
Cost: ADA members $90  Non-ADA $150  Dental students/residents $50
Time: 8:00-9:00a.m. breakfast and introductions. 9:00 a.m.-12:30p.m: Keynote Address & Round Tables

**Dear Fellow Women Dentists,**
Please join us on **Wednesday**, October 11th for the Nassau and Suffolk County Dental Societies’ eighth annual ‘Scrubs & Stilettos’ conference for women dentists. Enjoy a full morning of camaraderie, interactive discussion and conversation around topics that affect women dentists, after a full (and healthy) breakfast.

You will be able to attend up to three Round Tables during the morning from our exciting list of topics and speakers. Please register now, listing your five preferred topics. Tables will be assigned first come/first served. We’ll do our best to accommodate your preferences, but rest assured all topics are of value and interest!

We are honored to have **Dr. Irene Marrone-Tarrazzi**, the current First Vice-President of the ADA, attend and be our Keynote Speaker.

And…we will be honoring **Dr. Maria Marangé**, in recognition of her leadership and commitment to the field of dentistry and dental education.

**Scheduled Round Tables** (see complete titles and full details on reverse)

**TABLE #1:** Practical Tips for Navigating Legal Operations in Daily Practice  Jennifer Kirschenbaum, Esq
**TABLE #2:** Laser Periodontal Therapy  Erica Kaplan, DDS
**TABLE #3:** The Oral / Systemic Health Connection  Fabiola Milord, DDS
**TABLE #4:** Pediatric Care by Age: Year by Year Instructions and Advice  Keren Etzion, DDS
**TABLE #5:** Evaluation & Management of Impacted Teeth & Case Review  Sharon Pollick, DMD
**TABLE #6:** Endodontic Standard of Care  Dorene Toskos, DMD
**TABLE #7:** Silver Diamine Fluoride: Clinical Applications in Pediatric Dentistry  Mahnaz Khan, DDS
**TABLE #8:** Skin Cancer  Jennifer DeFazio, MD
**TABLE #9:** Overview of Dental Sleep Apnea  Kathleen Agoglia, DDS
**TABLE #10:** What’s New in Medical Spa Treatment?  Lynn Pierr, DDS

~Receive 3 C.E. Hours~Numerous raffles, prizes and give-aways!

</table>

**OFFICE ADDRESS:**

**I AM A MEMBER OF:**  ☐ NCDS  ☐ SCDS  ☐ OTHER ADA  ☐ NON-MEMBER

**Keynote address:**
Presenter: Irene Marron-Tarrazzi, DMD, MS; First Vice President, American Dental Association
Dr. Irene Marron-Tarrazzi was born in Venezuela and studied dentistry at the Universidad Central de Venezuela. She completed her post-doctoral training at the University of North Carolina at Chapel Hill where she earned her Certificate in Periodontology and Master of Science degree. Dr. Marron-Tarrazzi earned her dental degree from Nova Southeastern University. Dr. Marron-Tarrazzi is an adjunct faculty member at Nova Southeastern University and the University of Florida Hialeah Dental Clinic. She owns a private practice in Miami, Florida.

**TABLE #1: Practical Tips for Navigating Legal Operations in Daily Practice**
Presenter: Jennifer Kirschenbaum, Esq.; Managing Partner, Kirschenbaum & Kirschenbaum, PC, Healthcare Department
During our time we will discuss how to best manage staff in hiring and disciplinary action, interactions with patients and dealing with issues as they arise, HIPAA and regulatory compliance concerns, tackling our electronic compliance.

**TABLE #2: Laser Periodontal Therapy**
Presenter: Erica Kaplan, DDS; Board Certified Periodontist; Private Practice, Pt Jeff St, Dental Director, St. Chris Hosp.
An overview of the lasers used to treat periodontal disease and periimplantitis. The lecture will focus on the LANAP protocol as well as the LAPIP protocol with clinical examples demonstrating the effectiveness of the treatment.

**TABLE #3: The Oral / Systemic Health Connection**
Presenter: Fabiola Milford, DDS, MPH; Clinical Instructor, Dept. of Cardiology, NYU Coll. of Dentistry
The goal of this session is to reiterate the importance of oral and dental health as it relates to systemic and general health. Points of discussion include: explaining the various interplays between oral health disease states and their corresponding systemic health issues; and exploring what the future holds in the diagnosis and management of oral and general health.

**TABLE #4: Pediatric Care by Age: Year by Year Instructions and Advice**
Presenter: Keren Etzion, DDS; Pediatric Dentist, Private Practice, NYC
For anyone who sees even the occasional pediatric patient, just knowing the basics may not be enough to get you through an exam. This talk will cover the need-to-know (and do) points when a pediatric patient walks into your operatory for an exam. The information will be given in a simple age-focused format that prioritizes the changes you need to make as you follow the dental, psychosocial and dexteral development of the patient.

**TABLE #5: Evaluation & Management of Impacted Teeth & Case Review**
Presenter: Sharon Pollick, DMD; Board Certified OMFS; Chief of Dentistry, Brookhaven Hosp.; Priv Prac, Patchogue
Review the standards and approach to the management of impacted teeth. Case review with participant interaction.

**TABLE #6: Endodontic Standard of Care**
Presenter: Doreen Toskas, DDS; Endodontist, Private Practice, Jericho & Smithtown
Clinicians practicing endodontics are held to the same standard of care as specialists. This standard is defined by current advances, research and evidence. Current advancements, including microsurgical endodontics, CBCT imaging and methods of instrumentation will be discussed. The impact of these advancements on patient care will be outlined.

**TABLE #7: Silver Diamine Fluoride: Clinical Applications in Pediatric Dentistry**
Presenter: Mahnaz Khan, DDS; Board Certified Pediatric Dentist; Private Practice, Westbury
Silver Diamine Fluoride has recently received major media coverage as an alternative to traditional dental fillings in the treatment of dental caries in children. This discussion will give a background on what SDF is and its appropriate use in the management of dental caries in the pediatric population. We will discuss the advantages and limitations of SDF, as well as appropriate case collection and implementation of SDF in treatment protocol.

**TABLE #8: Skin Cancer**
Presenter: Jennifer DeFazio, MD; Board Certified Dermatologist; Memorial Sloan Kettering Cancer Center
She will discuss the features of the most common types of skin cancer. She will also review sun protection.

**TABLE #9: Overview of Dental Sleep Apnea**
Presenter: Kathleen Agoglia, DDS; Board Cert. Dental Anesthesiologist; Chair Director, NYU Winthrop Hosp.
Obstructive sleep apnea induced biological changes can be shown to increase the risk for hypertension, pulmonary vascular disease, heart disease, cardiac arrhythmias and cerebrovascular accidents. The role of the dentist will be discussed in treating obstructive sleep apnea.

**TABLE #10: What's New in Medical Spa Treatment?**
Presenter: Lynn Fieni, DDS; Board Certified OMFS; Licensed Esthetician; Private Practice, Hauppauge
Aesthetics is a multi-billion dollar industry incorporating both surgical and nonsurgical techniques. How can you incorporate aesthetics into your dental practice?
TAX TIPS FOR DENTISTS
by Stuart A. Sinclair, CPA

Employers be aware there is a new New York State law called Paid Family Leave.

Starting January 1, 2018 an additional premium will be added to your disability policy to cover personal days needed by your employees.

After July 1, 2017, you may deduct 0.126% from the employee’s pay to cover this new tax.

If you have questions, call NYS helpline (844) 337-6303.

2017 has been a busy year so far for our Membership Committee. Most recently we held our first “Paint and Sip Night” at Espana Restaurant and Tapas Bar. This fun event was among several others organized by the Society to bring camaraderie as well as education and services to our members.

May found the members of committee braving the elements while shredding our members documents, FREE OF CHARGE. We want to thank our sponsor MLMIC and their representative, Kathy Lagano, for helping us to provide this much-needed member benefit!!

The Membership Committee worked with our Education Committee, chaired by Dr. Jimmy Kilimitzoglou, to prepare a CE course for our East End Members. Please look for details in our bulletin and always CHECK YOUR E-MAIL and the WEBSITE for information about all upcoming events.

Currently Membership is working with the New Dentist Committee to host a fun and informative event in October for our Residents and New Dentists. “Name that Member Benefit” will be an evening of fun while obtaining information about what the Society does for its members. Dr. Brian McCormack, Chairperson of the New Dentist Committee, is working with his team, Dr. Jen Englebright, Dr. Nicole Napolitano, and Dr. Justin Ohnigian, to organize a great evening.

If you have any ideas for events or programs that might be interesting or helpful to our members, please let us know.
Dues Installment Memo

Please watch for the notice this Fall from NYSDAS regarding the dues installment payment option for 2018.

NYSDA implemented this policy a few years ago and it has been very well received by many of our members.

The plan allows you to pay your tripartite dues over a seven month period from November to May.

It is only available to members in good standing who are assessed the full active dues for 2018. If you are eligible you will see an icon on the members only section of the NYSDA website, www.nysdental.org.

Enrollment is only available online and participation is available by credit card only.

Don't miss out on this opportunity. It will only be available in the Fall. Once the program is under way, you will not be able to take advantage of it.

NYSDA Continuing Education Awards for 2016

The following members will be receiving NYSDA certificates recognizing continuing education hours completed from the date of membership through the end of 2016. Awards are given only at the benchmark levels of 100, 300, 500, 1000 and every 500 credit hours thereafter. For example, members who completed 450 total hours in 2016 will not receive an award until they complete 500 hours. The 100 and 300 hour certificates have been mailed out and the remaining certificates will be presented at our September 27th General Membership Meeting.

2000 Hours

LUNCH AND LAUNCH

A FREE Practice Growth Team Meeting

Let us help you and your team identify the strengths and weaknesses in your Long Island dental practice.

When you identify the weaknesses, it creates opportunities for growth.

In just 90 minutes, with you and your team, at your practice, let us help you develop strategies to increase production, attract more new patients, eliminate stress in your practice and LAUNCH your practice to the next level.

We are the most successful Dental Practice Coaching group on Long Island.

Single-Doctor practices increase more than $300,000 in a year.

(Multiple Long Island References Available)

Practices have doubled and tripled in 2 years from our information.

We offer a blueprint for tremendous practice growth

Dr. Steven Katz is one of the top coaches in dentistry. As a practice owner and clinician he has seen it all - tragedy, failure, and eventually tremendous success. Steve’s compassion and desire to help others combined with his highly productive practice strategies make him the perfect person to motivate his colleagues. Dr. Katz reveals all of the tips, tricks and secrets you need to know to achieve similar success.

Dr. Richard Madow
The Madow Brothers

“Dr. Steve Katz and Kelly Fox-Galvagni give the best Practice Management Program that I have heard in years.”

Dr. Woody Oakes - Excellence in Dentistry / The Profitable Dentistry Newsletter

Dr. Katz and his business partner Kelly Fox-Galvagni are two of the rising stars in practice and team development coaching. Their wonderful message of hope is what dentists and teams need to hear after trying times in a tough economy. Steve and Kelly’s management and marketing strategies will bring success to the practices they work with.

What Would You Do?

Dr. Mascalese has been practicing Prosthodontics and TMD for the last 20 years in the same location in a small suburban 75 miles from the big city. The only other specialist is 80 miles away.

He has been treating Ms. Frappato for the past 2 years for TMD. She is a petite 38 year old with hypertension which is controlled by a low dose beta blocker, occasional migraine headaches treated with Imitrex and a hypothyroid condition treated with the medication Synthroid. She smokes 1/2 pack of cigarettes per day.

She has tried many times to quit but has not been successful. Her dental condition includes multiple missing teeth and associated malocclusion. In addition, a myofascial condition involving the temporalis and masseters flares up occasionally.

Dr. Mascalese has helped her greatly with NSAIDS, a few narcotics when extremely painful, physical therapy and an orthotic appliance. He has started her posterior rehabilitation and has several teeth in temporaries. She has never missed an appointment, but last week she cancelled her appointment and this morning, your receptionist tells you that she is cancelling a 2 hour appointment scheduled for later today.

Dr. Mascalese has been dating Ms. Frappato for 6 months or so, but he recently broke off their relationship. He had never dated a patient before. Dr. Mascalese's wife passed away 3 years ago from breast cancer. Ms. Frappato explained to the receptionist that "I can't bear to see him anymore." She knows that she can't wait too long for final treatment because of her temporary crowns.

Ms. Frappato asked the receptionist for another dentist to continue her treatment.

Dr. Mascalese is visibly upset when he learns the reasons since her case requires a complex treatment. He knows that her job is quite stressful not to mention the commute from the city is almost 1 1/2 hours to his office each way. In addition, he has arranged an interest free financing monthly payment plan that most offices would never consider.

Dr. Mascalese is facing an ethical dilemma. Check the course of action that you would recommend and return to the SCDS at suffolkdental@optonline.net.

1. Dr. Mascalese should attempt to re-establish a professional relationship with the patient.

2. Dr. Mascalese should cease treating the patient and take proper steps to avoid patient abandonment.

3. Dr. Mascalese should avoid dating patients in the future.

4. Dr. Mascalese should help finding another dentist to complete her care in the city.

5. Other alternatives. (please elaborate)

{Dr. Jonke is the Past Chair of the NYSDA Council on Ethics and will be serving on the ADA Council on Ethics, Bylaws and Judicial Affairs starting this Fall.}
The ADA has launched a new advertising campaign to bring more patients to your practice. In this 3-year campaign, they will be spending $6 million annually on search and digital advertising to direct consumers to make an appointment with an ADA dentist. As part of this campaign, they have enhanced the Find-a-Dentist tool to make it easier for patients to find you. Update your profile by visiting ADA.org/MyADA, and login using your user ID (member number) and password. If you’re unsure of your user ID or password, call the ADA Member Service Center at 1-800-621-8099 or contact us at (631) 232-1400. Data shows that profiles with pictures receive more clicks than those that don't, so be sure to upload a photo!

ADA American Dental Association®
America's leading advocate for oral health

The New Dentist Committee invites you!* to join us at
Laurel Lake Vineyards
on Sunday, September 10, 2017
12 noon – 3:00 p.m.
(rain date – September 17)

7:45 PM (approx.): Featured Educational Program

Dental Sedation Update - 2017

Presented by
Mana Saraghi, DDS

Unfortunately, dental sedation related morbidity and mortality is a frequent topic of discussion in today’s media. Regardless, it is of the utmost importance to identify high risk patients and ensure an adequate emergency armamentarium is in the office. In the wake of such events, state boards may opt to increase monitoring requirements as well. This lecture will review ADA Guidelines, including end-tidal capnography; novel oxygen and nitrous oxide delivery systems; and emergency armamentarium, including reversal agent dosing and EpiPen® auto injector alternatives.

Mana Saraghi is a board-certified dentist anesthesiologist. She is the dental anesthesiology residency program director at Jacobi Medical Center, Bronx, N.Y.; attending dentist anesthesiologist at SBH Health System, Bronx, N.Y.; and clinical assistant professor at the Herman Ostrow School of Dentistry of the University of Southern California in Los Angeles, Calif. Saraghi maintains a private practice in which she focuses on providing pain and anxiety control for dental patients, including pediatric, adult, geriatric, and special needs patients. She provides thorough, customized anesthesia to best accommodate the combined demands of the patient, the procedure, and the operating dentist.

IMPORTANT! – RESERVATIONS ARE REQUIRED!
