**ADA CERP® Continuing Education Recognition Program**

Suffolk County Dental Society is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about a CE provider may be directed to the provider or to ADA CERP at www.ada.org/ceerp.
As your consultant, I will guide you through every stage of your career with experience, integrity and the resources that will provide you with a clear advantage.

**JOIN DENTAQUEST IN MAKING A DIFFERENCE**

DentaQuest, the largest sponsor of government programs in the nation, invites you to join our provider network in New York to bring quality dental care to underserved populations. You can make a positive impact on the oral health needs of managed-care members in your area.

As a network provider, you have access to:
- A local provider relations representative
- An easy-to-use web portal for verifying member eligibility, submitting claims, obtaining preauthorization and more
- Fast, hassle-free, real-time claims processing
- Flexible options that allow you to focus on your patients, not paperwork

We look forward to having you join us in our mission to improve the oral health of all.

For more information and to sign up online, visit DentaQuest.com/ny/dentists.
I am an ADA Member Dentist because there is a difference!

It is an interesting time in organized dentistry. For years the ADA has seen declining membership as a percentage of the available pool of dentists. Some dentists don’t see the value in joining the ADA. They may feel the ADA will continue to advocate for oral health in America whether or not they are a member. Younger dentists often have significant debt after leaving dental school, and they may feel they can’t afford to be a member. I don’t see how they can afford not to be a member. We enter the profession of dentistry with the understanding that we need to invest a lot of time, effort and money to train ourselves with four years of college, four years of dental school and then postgraduate training. In return we expect to join a profession where we make a good living and improve patients’ lives every day. We have autonomy. We can own our own practice or work as an employee. We make important decisions with our patients. Overall, it’s not a bad profession, but how do we protect that investment? Membership! We can’t expect the ADA to protect our investments unless we join. There are many outside interest groups, whether it be: do-it-yourself clubs, supply companies, lawyers, or insurance companies that look to make a profit from dentistry, often without the best interest of the patient in mind. Dentists need to control the conversation about how to best deliver dental care to the public. We need to create a dialogue where the patients’ health comes first, and dental providers are fairly compensated for all of our training and expertise. That’s what the ADA does. ADA members: advocate for oral health, volunteer dental services at “access to care” events, are held to a high code of ethics, and are required to answer to peer review. The Dental Society often gets calls from unhappy patients inquiring about the peer review process. When they find out that their dentist is not a member dentist, and we can’t hear their case, they are shocked. Some patients assume that all dentists belong to the ADA. They don’t understand there is a difference between ADA members and non-members.

We need to inform the public there is a difference. Over the past few months, our Membership Committee has been working on an ad campaign that will disseminate this message. Organized dentistry is at a crossroad. Membership is declining, but we are financially sound with healthy reserves. As our Executive Director, Bill Panzarino, wrote in the last Bulletin: “Our reserves are more analogous to a corporate “war chest” then they are to a 401k/retirement money.” I couldn’t agree more. We can invest some of our reserves in telling the public ADA membership makes a difference. Eventually, we want patients to ask us, “Are you an ADA dentist, because I know it makes a difference.” If anyone wants to become more involved in this campaign, join our Membership Committee. Call the dental society and ask to become a member of this committee.

This is my last Bulletin article as president and I am happy to report that the members of Suffolk County Dental Society are in great hands. Dr. Claudia Mahon-Vazquez, our Membership Committee chair, will be taking over as president. She brings a wealth of knowledge about membership from all of her experience at the ADA and NYSDA. She is the right person at the right time. Our Executive Director, Bill Panzarino and Executive Assistant, Carol Deewester are both outstanding people, and are assets to the Dental Society. They are the backbone to our organization. Lastly, I would like to thank the line officers Drs. Claudia Mahon-Vazquez, Patricia Hanlon, Craig Smith and John Guariglia for all their hard work and dedication. We have a bright future with them at the helm. It has truly been an honor to serve as president. See you at the next meeting.

In our last publication the membership committee wanted to recognize longevity in the ADA by honoring members celebrating a special anniversary of continuous membership. We are fortunate to have more than a thousand members, so to manage what would have been a very long list for people to read and search through we selected the five-year anniversary level to be recognized in 2019. That is nearly 200 members recognized! Here’s an example of how it works/worked... If in 2019 you celebrated your twenty-fifth consecutive year, your name appears in the 25 Years column. However, if you celebrated your 26th, 27th, 28th, 29th during 2019, you were not recognized. Only if your consecutive years was divisible evenly by 5 (i.e. an anniversary year) would your name appear. It was simply a way to manage the numbers and provide recognition at the same time.

It was a nice read and reinforced how passionate our members are about their membership and the good work of the ADA. It is something we intend to do again next year, as it will be a different group celebrating 5-year anniversary levels. I mention it here in my article this month because we got more phone calls on this then anything we’ve printed since I’ve come on board. Mostly inquiries were about “my name is missing”. I get it, you see your long-time colleagues listed there, so it begged the question. I am glad to see that our publication is so widely read, and that pride in membership is so strong. We’ll try and clarify this better in 2020 when we do it again.

Meanwhile, if you are looking to share that passion for membership and the profession, and help other non-members understand the importance of membership there are many ways we can use your help to recruit non-members. Please give me a ring in the office or drop an email to Contact@suffolkDental.org.

Also, about membership, please be sure to display your 2020 membership sticker prominently and proudly in your office. Print out your 2020 membership ID cards, a patient or perspective patient may ask, and that is one thing a non-member dentist can’t compete with.

Do you have a membership related quote or compelling rationale you think the public should be aware of about ADA member dentists? Send yours to Contact@suffolkDental.org.

This year has been a very busy year for the Membership and New Dentist Committees. We have been working hard to bring programs to our New Dentists, Residents and SBSDM Dental Students. In addition, we planned many events both social and educational. For the upcoming year we are putting together some programs for our established members and hope that many of you will find them helpful.

In 2019, your Board of Directors elected more than 60 members. This included new members, members who transferred from other components, and residents from the Northport VA, Stony Brook and St. Charles. Several members of our committee met with a number of the program directors including Dr. Keri Logan, Dr. Kenneth Johannesen, Dr. Debora Gazzillo, Dr. Wellington Rody, Dr. David Lam, Dr. Steven Zove, Dr. Dolores Cannella and Dean Mary Truhlar. We appreciate the welcome we received and look forward to further engagement with the residency directors and their residents.

The New Dentist Committee is grateful for the work of Dr. Brian McCormack. Dr. McCormack served for a number of years as our New Dentist Committee chair. Our New Dentist Committee is comprised of members who are out of dental school for ten years or less. We are happy to announce that the new chairperson for this committee is Dr. Alex Sanchez. Dr. Sanchez and some of his committee members, Dr. Nicole Napolitano, Dr. Patricia Swanson, Dr. Vanesza Robles, Dr. Megan Leary, Dr. Viet Tran, Dr. Jaqueline Maddox, Dr. Lauren Heisinger & Jack Lupfer have been working to create some relevant and fun events for our New Dentists. Our most recent event was at the Riverhead Cider House with a presentation by Dr. David Lam. If you are interested in joining the New Dentist Committee, the meetings are being held following each General Membership Meeting. Please keep an eye out for upcoming events and meetings and we hope you will join the committee, learn more about our Society and help direct the future for our profession.

I look forward to serving our Society in the upcoming year as your President and your Membership Chair. I am grateful to all the members who sat on my committee this year and those who helped at the various events that were planned. I hope for your continued participation and involvement. If you are interested in joining the membership committee, we are happy to accept new members. Thank you for this great opportunity to serve you and I look forward to a successful New Year, 2020.

Claudia Mahon-Vazquez, DDS,

TAX TIPS FOR DENTISTS
by Stuart A. Sinclair, CPA

One of the best features of the Tax Cuts and Jobs Act was the 20% deduction given to some businesses to reduce their net income. Unfortunately, dentists get phased out of this deduction (called section 199) at taxable incomes from $315,000 to $415,000 married, $157,500 to $207,500 single. A good tax strategy is to try not to exceed the threshold.

A year, or two, ago, I started thinking that it would be interesting to visit the site of the 1969 Woodstock Music and Art Fair at Bethel, NY on the exact 50th anniversary of the day when I got there as a 19-year old kid from Long Island. My wife’s family has a cabin in Calicoon, NY, about 20 minutes away so there was a place to stay. Theresa, my wife, was in favor of going even though she didn’t go in 1969, we hadn’t me yet. The numbers even lined up: in 1969 I was 19, and in 2019 I am 69! And I was curious who might show up and what they might look like. But why did I go in 1969?

Basically, I was into music and loved camping. What a great mix this would be. I’ve spent many evenings sitting around a camp fire and playing guitar. Well, things didn’t quite turn out that way. In 1969, after sitting in traffic Thursday night on Route 17B, we finally were directed into a freshly mowed field on Friday, and got a spot to set-up camp. It was over 2 miles from the festival stage. We, meaning my 15-year old brother and two 17-year old friends were pretty well prepared with camping gear, food and drink. My father let me use his 1960 Pontiac Catalina, so we had plenty of space. We even had paid for tickets!

Surprisingly to me, most people came with little more than what they could carry. No food or shelter! Well, by Sunday morning, we were ready to leave. We had been sharing our food with those who had nothing so our supplies ran low. Add to that the crowds, the rain and mud, the walking and the news stories we were hearing on the car radio. We also assumed our parents were hearing the news and were probably worried. There were no cell phones in 1969! The inbound traffic had finally ended so we packed up and left.

I can report that my 2019 return trip was wonderful. Bethel Woods now contains the preserved original site of the festival, a great museum, a large concert venue, and for the 50th Woodstock Anniversary weekend, there were all sorts of booths, music stages, activities, and stuff for sale. We spent 12 hours there on Friday, August 16, 2019. The day concluded with a concert featuring Ringo Starr; Blood, Sweat and Tears; and Edgar Winter. It was a real trip back to the 60’s.

There had to be 25,000 attending that day. I spoke to folks who had been at Woodstock 50 years ago and to many who wished they had been old enough to attend. It was a day full of memories and music, peace and fun. Woodstock has certainly become an economic engine in this part of Sullivan County. And, even though “they” tried to stop it 50 years ago, and for many years ignored that it even occurred, “they” have clearly embraced the event now. “They” have even renamed the main access highway, Route 17B, now calling it Woodstock Way!

I am happy I went back to Woodstock and glad my wife, of over 45 years, was with me this time. Over time, we usually forget the negatives and remember mainly the positives. There was a very positive, uplifting spirit at Woodstock that 50th Anniversary weekend. And yes, there were people there trying to make a buck, but that’s the way things are today. It did not diminish this replay of peace and music in my mind. In these turbulent times, it reminded me that anything is possible and maybe it’s not too naïve to think that “all you need is love.”

John Aloisio, DDS, SCDS Member, Shoreham NY

Circa 1969                           2019 Woodstock NY

REMINDER
The electronic version of this publication (Suffolk Dental Bulletin) is an “enabled” PDF, all the links are actionable and you can click on them for more information, registration, and to email directly. The electronic version of this bulletin is always available via www.suffolkdental.org for you to take advantage of these features.
Ten years ago, the Suffolk and Nassau County Dental Societies joined up to create a first time all female continuing education event. This had not been done exclusively for women but with the guiding hands of both local presidents, Dr. John Lagner and Dr. Michael Schreck coupled with the Executive Directors at that time, Scrubs and Stilettos took front and center.

Several accents have been added over the years, but the purpose has been the same, to promote and mentor women in an educational forum. Over the years we have encouraged women to come and “try us out” as their first speaking engagement. Many times, we have even asked women from both NYU and Stony Brook post graduate programs to lecture. And yes, occasionally we would get female speakers with state and national notoriety to come and share their expert knowledge.

These speakers are never paid an honorarium. They are with us because they believe in a women’s educational platform, where women teach women. And teaching they do! Some speakers bring incredible handouts and takeaways for the attendees at their tables.

This year we surpassed previous years with 109 registered attendees, 18 sponsors and 33 table clinics. Overall, we had more than 150 people in attendance. Two years ago, we added a feature, asking attendees to bring a slightly used professional garment to donate to “Dress for Success”. This year we collected over 500 pieces of clothing, shoes and handbags.

This year we added a “scrubs” fashion show conceived by one of our sponsors. Several students from Stony Brook joined some women of Suffolk in this whimsical add-on show. We also re-honored several past recipients of the Scrubs and Stilettos leadership award.

This year’s Honoree was Nassau County’s Dr. Fabiola Milord for all her mentoring of students at NYU and humanitarian efforts across many Caribbean countries. Our keynote speaker was Dr. Maureen Perry from AT Still University in Arizona who spoke on treating disabled patients with comfort and care. In keeping with this theme, we had the proceeds to our 50/50 raffle go to the Viscardi Center’s Oral Health Coalition. Dr. Natalia Elson won the raffle and kindly donated her share of the 50/50. Thank you, Natalia! During the breakout sessions we awarded some 25 prizes through random drawings.

This article would not be complete without mentioning and honoring Dr. Mark Bauman, who passed away less than two weeks after our event. Dr. Bauman came many times over the years as our photographer, cheerleader and friend. He was a champion of female students and dentists. He even created his own female event in 4th district with a cooking theme.

He may have been from upstate NY, but he mentored many of us in downstate and several good friends across the United States. He will be incredibly missed by just about anyone who knew him. I dedicate this 10th year anniversary article to his memory, knowing that was proud of how this meeting has evolved and grown and how it will continue to do so in the 10 years to come.

Thank you, Mark, for always believing!

{Dr. Maria Maranga is an SCDS Board Member}
DO NOT MISS IT—Long Islands’ Dental Event of 2020!

March 31st + April 1st - Hilton Hotel, Melville NY

- JAY LERNER – Learning the Principles to Functionally Aesthetic Smiles
- BOB MARCUS – The Latest in Technology
- THOMAS BILSKY - Esthetics
- MARIO ABDENNOUR – Safety and Simplicity in Root Canal – Hands-on Workshop
- ROBERT CONVISSAR – Oral Cancer Detection and Biopsy Techniques – Hands-on Workshop
- LESLIE PASCO – Dental Organization Workshop & Case Acceptance Made Easy
- MICHAEL PROOTHI – TMJ
- DANA MARZOCCA – Provisionals
- GARY SALMAN + DAVID HARRIS - Cyber Security + Employee Embezzlement
- AMY DUKOFF – Endodontics - Internal/External Peroxide-free Tooth Whitening
- LEVON NIKYAN – Executing a Hybrid Full-Arch Restoration
- LORI BERNARDO – High Impact Marketing, Social Media and Online Workshop
- PAUL MOSER – Implant Design and Implant Placement

Plus:

- SEDATION COURSE CERTIFICATION COURSE – MARC GOTTLEIB
- RISK MANAGEMENT – KEVIN HENNER + MIKE KELLY - FREE FOR 2020!
- INFECTION CONTROL MANDATE – PETER MYCHAJLIW
- CPR +DEFIBRILLATOR TRAINING – JIM DOLIN

TABLE CLINICS – ALUMNI RECEPTIONS – PHOTOGRAPHY CONTEST
GRAND PRIZE DRAWING – COCKTAIL RECEPTIONS
RESIDENT NIGHT – AMERICAN COLLEGE OF DENTISTS EVENT

REGISTRATION OPENS ON LINE – JANUARY 1ST

2020 SCDS Seminar Series

Four outstanding speakers, 7 mce per course, all available to you right here in our Hauppauge NY headquarters!

*New 86” 4k HDR Flat Panel Screen/AV system for 2020!*

**SS20#1 – March 11, 2020 – Thomas Viola, R.Ph, CCP:** *Hurts So Good* and *It’s (Medically) Complicated.* One course will discuss aspects of dental pain management and the second course is an overview of prescription and non-prescription medications, substances of abuse, etc. most frequently used by patients, and their dental implications.

**SS20#2 – May 13, 2020 – Howard Glazer, DDS:** *I Have It…You Need It!*
A presentation of the latest products, materials, and techniques and how they will benefit your patients.

**SS20#3 – September 30, 2020 – Adamo Notarantonio, DDS:** *Preparation(s), Photos & Provisionals; Critical Steps to Esthetic Excellence.* From treatment planning to insertion, learn how simple changes to these steps can mean extraordinary changes to the esthetic and functional outcome of your cases.

**SS20#4 – December 2, 2020 – Anne Koch, DMD:** *Endodontics Revisited.*
Includes a review of endodontic diagnosis and techniques, and an in-depth discussion of rotary instrumentation.

**BOOK THE ENTIRE SERIES before December 31, 2019 for $825!**

That is getting 4 for the price of 3, or 25% off the full price. It is less than $30 per CE, and INCLUDES Breakfast, Lunch, and Parking.

**Seminar Series #2020 The Full Series - March 11, May 13, Sept 30, Dec 2 2020**

**Registration form:** Complete and Scan/Email your registration to Contact@SuffolkDental.Org include your credit card information and we’ll email you your receipt. Alternatively, complete, and send with check or credit card information to SCDS, 150 Motor Parkway, Suite 105, Hauppauge, NY 11788. For phone registration with credit card number, call 631-232-1400, or fax with credit card number to 631-232-1402.

SEMINAR SERIES 2020

Course #2020-01, Wednesday, March 11, 2020: 7 m.c.e. credits

Thomas Viola, R.Ph, C.C.P

Hurts So Good and It’s (Medically Complicated)

COURSE CONTENT: It’s Medically Complicated - Dental professionals must frequently draw upon their knowledge of pharmacology for optimal care of today’s medically complex dental patients. However, armed with relatively brief exposure to such a vast subject during formal education and faced with ever-changing medication therapy guidelines, many dental professionals simply cannot keep up with the latest trends in disease state management. This program will provide an overview of the dental implications of the prescription medications, nonprescription medications, herbal products, nutritional supplements and substances of abuse most frequently used by patients. Special emphasis will be given to delivering this essential information in a format which makes it practical and useful for all members of the dental team.

Learning Objectives: Upon successful completion of this program, participants will be able to: - Identify the prescription medications most frequently encountered on a patient’s medical history and discuss their indications for use, adverse reactions and impact on dental therapy. - Discuss the non-prescription medications most often used by dental patients and explain their impact on dental therapy, including situations which preclude their use. - Identify the most popular herbal products and nutritional supplements and discuss their purported uses and dental considerations.

- Identify the most common substances of abuse and describe their oral manifestations and dental treatment considerations.

COURSE CONTENT: Hurts so Good - Management of acute dental pain is accomplished through a clinical approach that successfully incorporates opioid and non-opioid analgesics. However, this normally occurs outside the dental office, away from our immediate supervision and we are often faced with the difficult task of managing patient pain while also avoiding adverse outcomes for both our patient and our communities. Thus, it is critical for clinicians to accurately identify the need for pain control and associated risks, and to assess the efficacy of analgesic agents to be administered. This program will provide an overview of effective dental pain management and identification of addiction. Special emphasis will also be given to appropriate practices of prescribing opioids and individualized patient care planning.

Learning Objectives: Upon successful completion of this program, participants will be able to:

- Describe the pharmacology and mechanism of action of opioid and non-opioid analgesics. - Explain the intended role of opioid and nonopioid analgesics in the management of acute dental pain, as well as situations which may preclude their use, based on a patient's underlying medical conditions. - Describe techniques useful in developing individualized pain management plans as well as strategies useful in identifying potential opioid addiction. - Discuss appropriate prescribing practices for opioid analgesics to utilize in everyday clinical situations.

About Thomas Viola, the founder of “Pharmacology Declassified”, is a board-certified pharmacist who also serves the professions of dentistry as a clinical educator, professional speaker and published author. Tom is a member of the faculty of ten dental professional degree programs and has received several awards for outstanding teacher of the year. Tom has presented hundreds of continuing education courses to dental professionals, nationally and internationally, in the areas of oral pharmacology and local anesthesia and is well known for his regular contributions to several dental professional journals. Through his informative, humorous and engaging live seminars and webinars, Tom has earned his reputation as the go-to specialist for making pharmacology practical and useful for all members of the dental team.

SEMINAR SERIES 2020

Course #2020-02, Wednesday, May 13, 2020: 7 m.c.e. credits
Howard S. Glazer, D.D.S

I have It... You Need It!

COURSE CONTENT: - This is a program about real dentistry for real people by a real dentist! Dr. Glazer will present a potpourri of the materials and techniques that he uses to make the day more productive, easier and fun! The entire dental team will benefit from learning together about the latest products and how they will benefit your patients. Dr. Glazer writes a column every other month for Dental Economics, and reviews new products and materials on a regular basis for his column.

Topics may include:
- Anesthesia...giving an “ouchless” injection
- Curing lights...to light up your life (dental)
- Desensitiztion & Adhesives...a sticky subject made simple
- Composites for esthetic fillings not just white ones
- Impression materials...it’s true...first impressions are important
- Provisional materials...provisionals should look great
- Burs...so many and so little time
- Lasers...simple, easy and quick w/ great results
- Cements...that which holds the relationship together

Learning Objectives:
- To learn the different types of materials in various product categories
- To learn what is faster, easier and better
- To be able to evaluate product claims and merit
- To understand the benefits of ouchless anesthesia

- Reducing Sensitivity with topical paste application & Fluoride varnishes
- Sectionals & Rings for perfect, predictable contacts every time
- Whitening systems...that work
- Oral cancer prevention...dentists can save lives!
- Patient communication...high-tech and really cool!
- Cameras intra and extraoral & Going Digital...simple & easy
- Loupes, instruments, equipment potpourri
- To understand the value of continual doctor/patient communication
- To understand how to utilize many of the newer bioactive materials

Bio: Dr. Howard S. Glazer is a Fellow and Past President of the Academy of General Dentistry, and former Assistant Clinical Professor in Dentistry at the Albert Einstein College of Medicine (Bronx, NY). He has been a visiting clinician at several universities around the country including: SUNY Buffalo, Univ. of Minnesota, Univ. of California San Francisco, Univ. of Texas Houston, Univ. of Florida – Gainesville, and the Univ. of Missouri - Kansas City. Additionally, he is a Fellow of the American College of Dentists; International College of Dentists; American Society for Dental Aesthetics, the American Academy of Forensic Sciences, and a Diplomate of the American Board of Aesthetic Dentistry. Dr. Glazer is an Attending Dentist at the Englewood Hospital (Englewood, NJ). Additionally, Dr. Glazer is the Deputy Chief Forensic Dental Consultant to the Office of Chief Medical Examiner, City of New York. For the past several years, Dr. Glazer has been named as one of the “Leading Clinicians in Continuing Education” by Dentistry Today, and most recently was named as one of the Top Dentists in New Jersey by New Jersey Monthly magazine. He lectures throughout the United States, Latin America, South America, Canada, Europe, Israel, Scandinavia, India, Korea, Japan, Indonesia, Malaysia and China, on the subjects of cosmetic dentistry, forensic dentistry and patient management. Dr. Glazer is a frequent author of dental articles and has been published throughout the world. He maintains a general practice in Fort Lee, NJ.

Location: 150 Motor Parkway; Media Center – Lower Level; Hauppauge, NY 11788

Time: 9:00 a.m. – 4:00 p.m. Continental breakfast and check-in at 8:30 a.m. Buffet lunch 12 noon – 1:00 p.m.

Tuition: ADA members $275 Non-ADA, $475 Aux; $100 ADA Residents $60

SEMINAR SERIES 2020

Course #2020-03, Wednesday, September 30, 2020: 7 m.c.e. credits

ADAMO E. NOTARANTONIO, DDS

Preparation(s), Photos & Provisionals;
Critical Steps to Esthetic Excellence

COURSE CONTENT: - How do we achieve optimal results in our day-to-day practice? The answer is quite simple. It requires dedication, passion and most of all – precision. This course will zero in on the specific steps of your protocol where precision is crucial. From treatment planning to insertion, learn how simple changes to these steps can mean extraordinary changes to the esthetic and functional outcome of your cases.

Course Outline:

To identify the most common pitfalls of esthetic cases
Know where you are going before you begin; the importance of Preparation
To review prep guidelines for predictable esthetics in the anterior and posterior region
To understand the importance of shade selection and laboratory communication
The most powerful tool in dentistry… the digital camera
To understand the critical link between temporization technique and final results

Bio: Adamo E. Notarantonio, DDS, FICOI, FAACD - Dr. Adamo Notarantonio is a graduate of the State University of New York at Stony Brook School of Dental Medicine (2002), where he received honors in both removable and fixed prosthodontics. He completed his residency in the Advanced Education in General Dentistry Program at Stony Brook in 2003, and was chosen by faculty to complete a second year as Chief Resident. Dr. Adamo was Accredited by the American Academy of Cosmetic Dentistry in 2011, and recently received his Fellowship in the AACD. He is the 80th person worldwide to achieve this honor. He was further honored by the Academy when asked to serve as a consultant and examiner for the Accreditation and Fellowship processes. In 2016, Dr. Adamo was awarded the AACD’s Rising Star Award. Dr. Adamo has been re-elected to serve on the American Board of Cosmetic Dentistry®, is the most recent past chairman of the ABDC, and has recently appointed the Accreditation Chairman of the American Academy of Cosmetic Dentistry.

Dr. Adamo has completed The Dawson Academy Core Curriculum Series, dedicated to teaching the principles and skills necessary for the successful practice of complete, quality, predictable dentistry with primary concentration on occlusion and the TMJ. Dr. Adamo is also a graduate of the Kois Center, where he studied under Dr. John Kois. He is certified in the surgical placement of dental implants, Invisalign® invisible braces, CEREC® single visit crowns/onlays, and from 2005 to 2014, served as a consultant and basic, intermediate and advanced trainer for the CEREC chairside CAD/CAM systems. Dr. Adamo is highly experienced in all phases of cosmetic, implant, and restorative dentistry, and has received his fellowship in the International Congress of Oral Implantologists. He has been published in multiple dental journals and lectures nationally and internationally on such topics as CAD/CAM dentistry, implant dentistry, cosmetic dentistry, composite dentistry and dental photography.

Dr. Adamo is a member of the American Dental Association, the Academy of General Dentistry, the American Equilibration Society, the American Academy of Cosmetic Dentistry, and the International Congress of Oral Implantologists.

Dr. Adamo volunteers for the AAD’s Give Back A Smile (GBAS) program. This program aims to heal the effects of domestic violence by providing free consultation and dental treatment to restore the smiles of survivors of domestic violence. He also works with children from the NSSA, Nassau Suffolk Services for Autism. In 2008, Dr. Adamo donated his time in Madagascar (http://www.ankizy.org) to provide dental care to patients in need. Dr. Adamo is an avid golfer and is also fluent in Italian.

SEMINAR SERIES 2020

Course #2020-04, Wednesday, December 2, 2020: 7 m.c.e. credits
Anne L. Koch, DMD
Endodontics Revisited

COURSE CONTENT: Are you dissatisfied with your level of endodontic expertise? Do your gutta percha cones consistently come up short? Do you feel you got shortchanged in dental school in terms of clinical endodontic experience?? If so, please continue to read.

Dr. Koch is back…and better than ever! In this new all-day lecture format, Dr. Koch begins with a review of generic endodontics. Topics such as how to perform an accurate endodontic diagnosis and how to achieve profound anesthesia will be introduced right at the beginning. Furthermore, a vision for endodontic success will be established by discussing techniques that will allow the clinician to successfully perform endodontic therapy without compromising the restorability of the tooth.

The afternoon session begins with an in-depth discussion of rotary instrumentation and Dr. Koch will explain why the “Blend Technique” is, in her opinion, the best rotary protocol ever created! After a break, “Annie” will focus on bioceramic technology in both endodontics and pediatric dentistry. She will fully explain why bioceramics have become the New Gold Standard of obturation sealers. Following the obturation discussion, Dr. Koch will introduce participants to multiple uses of bioceramics such as in perforation repairs and pulp caps. The day concludes with a rapid-fire Q & A session in which every attendee has the opportunity to ask questions about various aspects of endodontics such as single visit protocols and emergency treatment.

At the conclusion of this lecture program, attendees will:
1. Understand why there is no such thing as a one-file endodontic protocol
2. Comprehend the synchronous relationship between endodontics & restorative dentistry
3. Learn how to successfully hybridize techniques
4. No longer be intimidated by endodontic emergencies
5. Realize that endodontics can be both satisfying to the clinician and beneficial to the patient

Anne L. Koch, D.M.D. - Dr. Koch received both her DMD and Certificate in Endodontics from the University of Pennsylvania. She is also the founder and past Director of the Postdoctoral Program in Endodontics at the Harvard School of Dental Medicine. Following her clinical and academic career, Annie formed her own successful technology and development company, Real World Endo, of which she was CEO and President. Dr. Koch is the holder of multiple patents. The author of more than one hundred and fifty articles in her prior specialty field, Dr. Koch has presented more than one thousand lectures worldwide. Dr. Koch is an active member of the ADA, AAE, MDS, and BDDS. Dr. Koch maintains a faculty position at PENN (Department of Endodontics) as well as serving as a Senior Fellow with Penn Medicine. She also is a member of the Board of Overseers for the University of Pennsylvania School of Dental Medicine.

Mark A. Bauman, DDS - Long time friend and colleague to many at SCDS, Dr. Bauman was a Fourth District member, and an ADA member for 44 years, achieving ADA Life Membership in 2013. Dr. Bauman frequented many SCDS and NYSDA events, often capturing the events for us with his photographic talents.

Stephen M. Goldstein, DDS - Dr. Goldstein was SCDS President in 2001, he joined the ADA in 1966 in the Army Component and was a Nassau member from 1968-1980. In 1981 he was a founding member of SCDS, attaining Life membership in 2007 and Life Retired status in 2018. He is the brother of SCDS Past President (2009) Leonard Goldstein.

Sidney Harold Henner, DDS - Dr. Henner graduated NYU in 1954 as a General Practitioner. He was member of the Nassau County Dental Society from 1957 to 1980, and a founding member of Suffolk County Dental Society from 1981 to present. He achieved ADA Life Membership in 1998, and Retired Life Membership in 2002. He served on Peer Review at SCDS for more than 10 years commencing in 1983. Dr. Sidney Henner is survived by sons Kevin (a dentist, SCDS Past President (2007), current NYSDA Vice-President), Robert (a dentist) and Michael (a physician). He was 91.
Mr. Zweigelt is an 88-year-old patient of yours for many years. Both he and his spouse were lovely patients and your staff enjoyed seeing them too. His wife recently passed away from a chronic illness. At his last visit, you and your staff noticed he has become more argumentative and showing signs of dementia, especially with his current medications. He should have a family member accompany him but he says, "please don't bother them, they are too busy. I am fine." He also refuses you to reach out to them.

After a review of his updated x-rays, 3 extractions are needed and to keep costs reasonable, the teeth will be added to his existing partial denture. Everything is explained slowly and deliberately and he appears to agree with your treatment decision. Before he leaves, the staff helps to coordinate the appointment with the oral surgeon. The partial denture is shipped off to the lab and will be delivered to the oral surgeon's office later in the week. Everything seemed in order when he left your office.

Well, Monday morning the oral surgeon is on the phone informing you that Mr. Zweigelt will not sign the consent form for 3 extractions. He has no pain and is able to eat just fine even without his lower partial denture. The surgeon has tried everything in his power to convince him that the extractions are necessary in order to avoid any future infection but to no avail. What will you say to the oral surgeon?

One cannot compel treatment even if the patient is making a bad decision. You must honor the patient's wishes as to treatment and carefully explain the risks of no treatment and to document accordingly. Remember that every patient is always free to refuse or change their mind on any future treatment. The issue that complicates matters greatly in this case is the suspicion of early signs of dementia and that begins with a consultation with the patient's physician.

Patients who are adjudicated mentally by a court of law lack the capacity to give or not give consent. Those patients have a guardian appointed to them. Even in early stage dementia, the law does not presume such patients are incompetent even so. The physician is the best way moving forward. Mr. Zweigelt has demanded no family member be contacted, and again, the patient's wishes in that regard must be honored even if they seem unnatural to do so. And with respect to dismissing the patient from your office, it is just a bad idea. Remember in our Code of Ethics that benefit of the patient is our primary goal. Patient Autonomy, Nonmaleficence, Beneficence, Justice and Veracity are the 5 Principles by which all dentists should practice with.

Finally, you can't treat anyone who does not want to be treated, but document the refusal completely. Continue to advise your patient to discuss the issues with his physician and family. Many times, the gentle reminder will have a brighter outcome.

For those of you who have caught on, the dentists and patient names in my articles originate from obscure grape varietals. Mark Bauman, a dear friend of mine and the SCDS family suddenly passed away a few weeks ago. He would text me his comments on the morning he read my articles and suggested other grape varietals for future articles. Mark made everyone around him feel very special including me. His love for good food and great wine is well noted as well as his photography. Organized dentistry lost a great man. He will be missed but never forgotten.

{Dr. Jonke is the Past Chair of the NYSDA Council on Ethics and is currently serving on the ADA Council on Ethics, Bylaws and Judicial Affairs.}

Comments to Contact@SuffolkDental.Org
We welcome the following new members to the Suffolk County Dental Society, elected between October and November 2019

**New Members**  
Yitta Garden, DMD  
Robert Lynn, DDS  
Elizabeth Michelizzi, DMD  
Hyunna Song, DMD

**Transferred Members**  
Risa Beck, DDS  
Laura De Oleo, DDS  
Jessica Fayans, DMD  
Gaiana Isakov, DDS  
Ralph Ragucci, DDS

**Reinstated Members**  
Robert Eickelberg, DDS  
Nancy Gress, DDS  
Efraim Zak, DDS

**Residents/Grad Students**  
Sean Challenger, DDS  
Michael Mackney, DDS

Green Dentistry is High Tech Dentistry

"We are entering the Eremozoic Era - the age of loneliness, the upcoming biological age after the sixth great extinction, when earth will be depauperate of nearly all life due to human activities" (National Geographic, October 2019, pp 46-48)

Green or eco-friendly dentistry slowly becomes a reality in today’s world when awareness to create a safe living environment for future generations is raised. An effectively designed dental clinic, patient education, and eco-friendly product usage is the way to reduce the detrimental impact of dental practices on the future, for a healthy and sustainable planet.

Dentists should take a leading role in society by implementing “green” initiatives to reduce their impact on the environment. The collective efforts of many small offices as well as multi-specialist practices, hospitals, and colleges can ensure that dentists will not be responsible for damaging it. The EDA (Eco-Dentistry Association, ecodentistry.org) is a very valuable source for implementing the newest information in every dental practice.

Green or eco-friendly dentistry is a new term and I would like to clarify two definitions: Green dentistry and Holistic dentistry. Green dentistry is a global approach to protect our planet and our environment by implementing eco-friendly philosophy. Holistic dentistry, on the other hand, is a patient-centered approach. Why now? Most of us agree that we are experiencing a climate catastrophe. The byproduct of dentistry on the planet biosystem can be dangerous. We are as a civilization killing our home. It is time to think of what can be done and how fast, and what our professional responsibilities are. It is never too late to start.

First of all, each of us needs to create a “green dental office.” There are some barriers to overcome to maintain it. Make a plan, educate your staff, and educate your patients!

In the last 20 years we have seen an exponential improvement in the technology’s ease and its accurate use, along with better material choices. Furthermore, the digitalization of the profession has significantly evolved and expanded the role of chairside CAD/CAM systems, new diagnostic and x-ray tools, and lasers. This makes them an integral part of modern comprehensive digital dentistry. Artificial intelligence use is also drastically improving diagnostic ability.

Let’s briefly discuss the impact of modern dental technology in an eco-friendly dentistry approach. 1) Electronic records: Tree and forest preservation, less space needed, time saver. As a result, less electricity used. 2) CAD/CAM and 3D printer: Less air pollution, less trash, fewer dental appointments (less gas used by cars), less material usage. 3) Digital x-ray and technologies such as DEXIS CariVu: No pollution, less or no radiation, better diagnosis, time saver. 4) Laser: Better diagnosis, less medications (opioids, antibiotics) needed, fewer appointments for patients. 5) Contemporary biometric and bioactive dental materials: Minimally invasive dentistry approach which provides a better treatment outcome.

As dental educators we also need to move toward an interdisciplinary approach by teaching not just within the dental field, but also outside the profession by communicating with physicians, RNs, RDHs etc. (teledentistry). The FDI created the concept of sustainability in the dental profession for the near future. We need to raise awareness among our students of the importance of collaborating in the interest of sustainability. We dentists need to reduce our impact on natural resources and at the same time promote general and oral health, improve diagnostics, and use a minimally invasive protocol. That is where green and holistic dentistry meet.

“The United Nations 2030 Agenda for Sustainable Development,1 adopted in 2015, established 17 goals to stimulate efforts over the coming years in areas of critical importance for both humans and the planet. This Agenda is a plan of action for people, planet and prosperity. Oral health is an essential part of human life. Dentistry as a profession should integrate sustainable development goals into daily practice and support a shift to a green economy2 in the pursuit of healthy lives and well-being for all through all stages of life.” (Philip Martin, Sustainability in Dentistry, March 27, 2019, https://www.leicesterdental.co.uk/sustainability-indentistry)

Conclusion: Evaluate the barriers and build up a "Green Office." Then apply the 4 “R”s: Rethink, Reduce, Reuse, and Recycle.

Thank you!

SUFFOLK COUNTY - DATC
DENTAL ASSISTANT COURSE
Starts Thursday, March 12, 2020

The Suffolk County Dental Society in conjunction with the Dental Auxiliary Training Center, is pleased to announce the 35th year of continuation of the comprehensive dental assistant training course offered for the auxiliary staff of the SCDS membership.

FUNDAMENTALS of CHAIRSIDE DENTAL ASSISTING

To meet the demand for trained dental assistants, the dental society co-sponsors this course to assist interested students who have a desire to prepare and work in this exciting career field. Dental assistants who have been trained on the job can significantly improve their job and skills performance with this training. The course is designed to train:

* already employed dental assistants who have limited or no formal training.
* those who are interested in preparing to take the DANB Exam.
* students who are interested in preparing to enter the career field.

This comprehensive course will augment the on-the-job learning experience by giving the theoretical background of the profession of dental assisting and also provide hands-on-training in a classroom setting. The course has been structured in such a way that the total time required for completion is only 15 sessions totaling 45 hours plus a 15 hour independent study project. The course is a total of 60 hours.

Topics covered include:

- Dental Terminology
- Infection Control
- Dental Specialties
- 4-Handed Dentistry
- Dental Office Emergencies
- Charting
- Sterilization
- Anesthesia
- Dental Materials
- Dental Anatomy
- Disease Transmission
- Operative Dentistry
- Dental Instrumentation
- Radiology
- Preventive Oral Hygiene

COURSE CERTIFICATE OF ACHIEVEMENT WILL BE GRANTED UPON SUCCESSFUL COMPLETION OF REQUIRED COURSE WORK, ATTENDANCE, & FINAL EXAM

COURSE NUMBER: SC101-4 (Thursday Evenings)
TIME: 6:30 to 9:30 PM
COURSE DATES: MARCH 12, through JUNE 18, 2020
PLACE: St. Charles Hospital & Rehabilitation Center
200 Belle Terre Road, Port Jefferson, NY 11777

Tuition: $1100.00
Text, Ins. & Lab Fees: $645.00

PLEASE CALL DATC TOLL FREE 1 (888) 595-3282 TO REGISTER FOR THIS PROGRAM.
A PAYMENT PLAN OPTION IS AVAILABLE.

ALSO: CALL US TO DISCUSS the DATC “SPECIAL PATHWAY” for BECOMING A New York State LICENSED “CERTIFIED DENTAL ASSISTANT”.

ARE YOU IN NEED OF A DENTAL ASSISTANT?
The Dental Auxiliary Training Center Fundamentals of Chairside Dental Assisting course that started in September will end in December 2019 and DATC graduates will be ready for employment. As a service to the SCDS dentist members, DATC has a placement service to help dentists find trained prospective employees. We will be happy to discuss your job requirements, and help you find a mature, responsible, motivated, dental assistant. Your job information can also be anonymously posted on the Dental Auxiliary Training Center website page. Our students and graduates search this page to find out about current dental assistant positions. If candidates are interested they will contact you directly via the email address you provide us to put in the job posting. To view current job postings, visit us on the web at www.datcny.com, click on the JOBS page to see how we can post your job opening. As has been our policy for the last 35 years, there is never a fee for this service. Please call DATC Director, Lisa Lyle, at 1(914) 564-3774 for more information.
Thank you to all that contributed to this critical cause on behalf of your profession! Contributions have fallen off in recent years and that is unfortunate at a time when advocacy for the profession is so important. If you haven’t, please consider making a donation at [http://empiredentalpac.com/](http://empiredentalpac.com/).

**MID/LATE CAREER FORUM**

SCDS is introducing a new fully sponsored set of programs in 2020 with targeted content for the mid-career and late-career dentist. Subjects to be covered include how to take on an associate or partners, how to expand and/or refurbish the office, how do I get my office’s production up, how do I buy and integrate an additional practice, how do I best position my practice for sale, is a DSO right for me, what are the legal considerations for this endeavor, what financial considerations might I be missing, is my retirement savings where it needs to be, should I be thinking of that cone beam or laser for my office, is my current staff the right mix to get me to where I am looking to go, etc.

These events are MEMBERS ONLY and require registration in advance. They are expected to be very popular with a limited number of seats. These are fully sponsored events, first come, first served availability, no fee to attend. However, a $50 no show fee will be assessed if you do not cancel 48 hours in advance. This is to ensure maximum benefit to interested members. Be sure to reserve your seat early. Watch for more information in our emails and on the events calendar.
